## Description

The Territory makes a convincing case in rand and sense. A major selling point is its interior space. The Territory's 4,630mm length is one of the largest in the segment and under its stylish exterior it has exceptional, almost limousine-like interior room to stretch out in. There is no other crossover in the C-SUV category with more rear legroom. The Trend has a pleasantly plush cabin ambience and is stocked with most of the key luxuries, including climate control, cruise control and an infotainment system with wireless Apple CarPlay and Android Auto functionality. With outputs of 138kW and 318Nm, the Territory musters decent pace with a responsive throttle and it's a refined experience, with muted noise levels. Subject to finance through Motus Ford Culemborg.
