Description

The Next Gen Everest XLT 4x2 A/T is a solid all-rounder in the SUV segment, offering a refined combination of performance, comfort, and technology. Powered by a capable engine, it delivers smooth acceleration, making it suitable for both city driving and highway cruising. The 4x2 drivetrain offers sufficient handling for everyday driving, while the automatic transmission ensures a smooth driving experience. Inside, the Everest XLT features a modern and spacious cabin with comfortable seating and intuitive tech features like a touchscreen infotainment system with Apple CarPlay and Android Auto integration. It also offers a good amount of storage space, making it a practical choice for families. The ride quality is balanced, handling both smooth roads and light off-roading well. While it doesn't have the ruggedness of the 4x4 models, it still provides decent ground clearance and stability. Overall, the Next Gen Everest XLT 4x2 A/T is a great option for those looking for a versatile and feature-packed SUV that leans more towards daily comfort

and performance than extreme off-road capability.

Simon Vermooten Rd, Waltloo, Pretoria, South Africa
