Description

The Ford Ranger 2.0D Bi-Turbo Wildtrak 44 A/T Double Cab is one of the most refined and feature-rich bakkies in its class, blending premium comfort with serious off-road capability. Its 2.0-litre bi-turbo diesel engine delivers an impressive 157 kW and 500 Nm of torque, giving it strong acceleration, confident towing power, and excellent responsiveness across all driving conditions. Paired with Fords smooth 10-speed automatic transmission, gear changes are seamless, helping the Ranger feel both powerful and effortless on the open road. As a 44, the Wildtrak is built to explore. It offers selectable drive modes, a robust low-range system, and advanced off-road technologymaking rocky trails, steep climbs, and challenging terrains feel easy and controlled. The suspension strikes a good balance between toughness and comfort, offering a surprisingly smooth ride even when the road gets rough. Inside, the Wildtrak elevates the bakkie experience with a premium, high-

tech cabin. Leather seats, ambient lighting, a fully digital instrument cluster, and Fords large SYNC infotainment system all contribute to an upscale feel. Practical touches, like clever storage solutions and multiple charging points, make it ideal for both family use and business needs. On the safety front, the Wildtrak is well-equipped with advanced driver-assistance features such as adaptive cruise control, lane-keeping assist, blind-spot monitoring, and multiple camera views. Fuel economy remains respectable for a high-performance 44, and Fords reputation for durability adds long-term confidence. Verdict: Stylish, powerful, and packed with features the Ranger 2.0D Bi-Turbo Wildtrak 44 is the perfect blend of luxury and capability, equally at home in the city and on demanding off-road adventures.

Simon Vermooten Rd, Waltloo, Pretoria, South Africa
