Description

The Ford Ranger 2.0L Bi-Turbo DC TREMOR 4WD 10AT is a capable and comfortable off-road-focused pickup with a powerful engine and a sophisticated 4x4 system. Reviewers praise its performance, refined on-road ride, and the Tremor’s specific off-road upgrades like all-terrain tires, unique suspension, and off-road modes, though some note the 10-speed gearbox can sometimes be hesitant. Its key features include the 154 kW / 500 Nm bi-turbo diesel engine, 10-speed automatic transmission, and distinct visual elements like a black honeycomb grille and "Tremor" badging.

Simon Vermooten Rd, Waltloo, Pretoria, South Africa
