Key features: - Pre-Collision Assist with Autonomous Emergency Braking (AEB) and Intersection Assist: Warns you of potential collisions with vehicles, cyclists, or pedestrians in front of you or while turning at intersections. The brakes will apply automatically if you don't act. - Lane Keeping Aid with Lane Departure Warning: Provides gentle steering support to prevent the vehicle from drifting off the road or to detect unintentional lane departure. - Adaptive Cruise Control: Set your cruising speed and let the radar monitor the traffic ahead, automatically adjusting speed as needed. - Rear View Camera: Activates

automatically when the vehicle is in reverse, providing a 180-degree split view to assist in navigating tight parking spaces and revealing objects that may have been missed. - Reverse Brake Assist: Detects objects or pedestrians behind the vehicle or a vehicle about to cross at the rear. It will sound an alert and, if necessary, apply the brakes to help prevent collisions.
